

To Whom It May Concern,

Please, I urge you, DO NOT make the proposed expansion changes to the Low Power FM (LPFM) broadcast service which would allow new LPFM stations to take priority over current FM translator service. If this change is implemented, it could potentially disrupt a VERY NECESSARY and BENEFICIAL program that broadcasts to hundreds of thousands of people over these FM translators.....**K-LOVE** radio!

K-LOVE provides a humanitarian service that is HUGE, and we cannot afford the risk of losing it! A year ago I began listening to K-LOVE (91.1 FM out of Denver, CO), and soon not only did I become a daily listener, but I became a financial supporter because I saw, through my own experience and through the powerful testimonies of others who called in to say "Thanks", what a positive and powerful program this is, and how it is helping vast numbers of people throughout our country!

Those who believe that regional or national services that broadcast over these current FM translators are of little value are very wrong!! Just listen to K-LOVE, particularly during a pledge drive, and you will see, as I did, just how widespread the benefits of this service are and the numerous lives K-LOVE has touched! This broadcast makes a positive difference! K-LOVE serves the public and it is in public's best interest to keep it going! So again I urge you, please DO NOT implement the proposed expansion to the LPFM broadcast. It would be an enormous disservice to the listening public and local communities throughout the nation if we were to lose it!
